

Fall Sprinkler Turn-off

The sprinklers will be turned off on October 5th for winterizing. After October 5th be aware that any flooding is not from the sprinklers.

Dattage Sprinklers will be blowing out sprinklers the week of October 5th. If you want Dattage to blow out your backyard sprinklers, you need to sign up on the sign-up sheet on the community board in the clubhouse or email the office to be put on the list before October 4th. If not, they will NOT come blow out your backyard sprinkler system individually. The backyard sprinkler blow out is not covered by the HOA and will need to be paid to Dattage Sprinklers directly.

This will be a onetime event. After Oct. 5th Dattage's will not accommodate requests for backyard sprinklers.

Fall Trimming

Dattage Landscaping are doing fall trimming. All common area trimming is managed by the HOA.

If you trim branches or remove debris from your own backyard, do NOT place it in front yard or common areas for Dattage Landscaping to remove. It is your responsibility to dispose of backyard debris in your garbage can. If Dattages clean it up piles of trimmings the HOA is charged additional fees and an invoice will be sent to residents if known, leaving debris in front yards and common areas.

Landscaping and Sprinkler Requests

Please send all sprinkler and landscaping requests into the HOA office so we can approve and budget for all work requested. We are having lots of residents texting Dattages directly. If you request work directly without HOA approval, you will be responsible for paying the invoice. Please send requests to the email listed or fill out the Landscaping or Maintenance form available on the website.
